## Vehicle valeting company boosted by the MIQUANDO effect

Steve Woodward, proprietor of local car valeting and cosmetic body repair specialists **ProShine** is in no doubt that employing the highly flexible **MiQuando** online booking service, has put the gloss on his business.

Steve started **ProShine** almost a decade ago and has built up an extensive and loyal clientele. But, as any small business will testify, running the day to day operation, and handling the essential booking and administrative function, can be a headache.

His decision to offer his customers the **MiQuando** online booking facility is one Steve is happy he made:

"The booking site is brilliant. Also the team at **MiQuando** are incredibly helpful and supportive; whenever I've asked for something they have never said 'we can't do that.' They have enabled me to expand significantly the corporate side of the business. Clients can simply order a service by pressing the 'Book Now' button. Furthermore each booking is backed up by the automatic

email reminder service the day before.

Steve offers a comprehensive range of services from full valeting, washing and polishing to cosmetic body repairs for scratches, bumper scuffs and damaged alloy wheels. Customers requiring any service can do so at the touch of the button courtesy of **MiQuando's** unique and inexpensive online booking facility.

**MiQuando** is based in offices on Prospect Hill, Douglas. **ProShine** is another in a growing number of small to medium-sized businesses to benefit from the **MiQuando** effect.

If you would like your business to experience the MiQuando effect, visit [www.miquando.com](http://www.miquando.com) or call Jon on 200077
