PRESS RELEASE

NEW MOBILE SITE MAKES BOOKING ON THE GO EVEN EASIER

A brand new mobile site from online booking service MiQuando.com will make it even simpler and more convenient to make appointments and bookings on the go.

MiQuando already makes booking everything from restaurants and beauticians to lawyers and car valets easier than ever with its popular online services, and now the arrival of a dedicated mobile site makes it even quicker and easier to find and book online with local business using smart phones or tablets.

Nigel Jones from MiQuando said: 'MiQuando is rapidly becoming the most popular way of booking services on the Island. More and more people want to be able to book a restaurant, salon, car mechanic, even an advocate or anything else without having to call between 9 and 5 – Booking online is now the norm for many people. Being able to find and book local businesses 24/7 when you're on the go, is one of the ways we are making life easier for customers and businesses alike.'

MiQuando mobile works on any smart phone or tablet. There is no need to download anything from any store; users can simply add a link on your device for all the convenience of an app.

MiQuando.com is a Manx business servicing local companies; over 430 different services can be booked through the website, including 50 restaurants and 20 hair and beauty businesses.
